

ACTIVITIES AMONG THE FARMERS

NEW STOCK REPORT SERVICE IS STARTED BY THE GOVERNMENT

Corn Belt and Western Range Will Be Well Covered on Interesting Data.

WASHINGTON, Nov. 24.—A new live stock reporting service for forecasting current live stock production, marketable supplies and commercial movements has been organized by the department of agriculture. The service will cover the corn belt and the western range states and will function through state statisticians already connected with the department's crop estimates work. The cooperation of many railroads, stock yards, packing plants and producers' organizations for furnishing data as a basis for forecasting has been obtained.

The new service is part of the department's program for collecting and disseminating information bearing upon agriculture in an effort to influence the organization of the farm business on a sound economic basis. It is believed that statistics on present and prospective live stock production and information of current market movements will enable purchasers better to correlate supply with demand, thereby preventing glut or shortages and the attending fluctuations in prices.

The following reports are prepared, to be issued from time to time: Monthly reports on changes in numbers of live stock on farms, semi-annual live stock in March and November, monthly reports of receipts and shipments of live stock from the corn belt and western range states, monthly reports showing pasture and feed conditions in the range states, the condition of live stock expressed in percentages of normal, and live stock prices on the range in territory distant from markets.

Estimates of the number of cattle on feed will be made Dec. 1, Jan. 1, and possibly Feb. 1, of each year, the estimates to be confined to areas where cattle are fed for market chiefly in the corn belt states. Estimates of sheep and lambs on feed; estimates on March 1 will show the probable spring movement of sheep and lambs from the corn belt states, and from the western range states, Arizona, Kentucky, Tennessee, West Virginia and Virginia. A final report of shipments from these states will be made in July or August.

Estimates will be made of the calf and lamb crop in the range states, the first report to be made about July, with final revision on Jan. 1 of each year. Plans for making similar estimates in the corn belt states may be developed later. A semi-annual estimate of the prospective supply of cattle for spring and fall delivery will be made in February and August.

Other reports will be an estimate of the prospective movement of grass-fed cattle from southern Texas, in February; an estimate of the lamb crop of California, Idaho and Colorado, in March; a report on the condition of pasture in Kansas Flint Hills and short grass areas, in March and April; an estimate of the prospective movement of grass-fed sheep from western Texas, in March; the grass-fed cattle movement from California, in May; the number of cattle which have gone from the southern states to Oklahoma, Kansas and other northern pastures, in May; the number of fat and feeder lambs available for shipment from Arizona, Idaho, Wyoming, Colorado and New Mexico during July and August, in June; the number of grass-fed cattle moving to market from Kansas, Oklahoma, Montana, Wyoming, in July; and a report of the calf crop of Texas, New Mexico and Arizona, in September.

HOOSIER GOLD MEDAL SHEEP CLUB STARTED

Plans for a Hoosier Gold Medal Sheep club have been completed and announced by the Indiana Live Stock Breeders' association. Gold medals will be given to sheep breeders and producers in Indiana that make two-thirds of the lambs in their flocks weigh either 55 pounds in March or April, 72 pounds in May or 80 pounds in June. Active cooperation of the Purdue University Agricultural Extension department has been secured to assist in carrying out the plan of the club.

Data secured by Purdue show that three-fourths of the Indiana lamb crop goes to market between July 1 and Dec. 1, which is the period of the year when prices are the lowest.

"What we want to do is change this around," said F. G. King, secretary of the Breeders' association. "More of the Indiana lamb crop should go to market before July 1 and that is the main reason for promoting this contest. We also expect the contest to teach fundamental of most profitable lamb production. The ultimate goal can not be reached without practicing efficient methods of breeding, feeding and management. Claude Harper, sheep specialist at Purdue, will have active charge of the club."

The official rules of the Hoosier Gold Medal Sheep club may be obtained by applying to F. G. King, secretary of the Indiana Live Stock Breeders' association, or Claude Harper, Lafayette, Ind.

STOCKHOLDERS' MEETING.
The annual meeting of the stockholders of the Saint Joseph Building and Loan Association, for the election of directors, will be held at its offices, 124 S. Main st., Monday evening, Dec. 4th, 1922, from 7 to 8 o'clock p. m.

FOR SALE.
Very fine Eastern Mink Cape 40 inches long. Will sell very reasonable if taken at once. In store at Greenblatt, 232 S. Michigan st. 326-14.

Indiana Farmer Gets Excellent Potato Crop

A good beginning in producing successful crops of potatoes in Warren county was made last spring at the suggestion of County agent H. Mandus, when the Warren County Farmers association purchased a carload of certified seed. While the weather conditions for growing a large crop of potatoes were not very favorable this year, yet good results have been secured in many places where certified seed was used. The early varieties were somewhat handicapped on account of being planted late due to continued wet weather in the spring and the late varieties suffered greatly from the long drought which was general in the county last summer.

Clifford Naville of Prairie township, who had out the largest acreage of potatoes of any man in the county, planted 16 acres of Early Ohio on black prairie soil. Mr. Naville used certified seed which is treated for disease and planted them on soil that had been given a good application of fertilizer.

Careful attention was given to cultivation to keep the field free from weeds and to keep the crop growing in good condition. The necessary spraying to keep the crop free from insects and disease was done according to the methods recommended by Purdue university.

While production was limited by unfavorable weather conditions, yet Mr. Naville harvested 190 bushels of good salable potatoes per acre. The price received was \$1.00 per bushel, which made the crop the most profitable on the farm this year.

REAL FIGHT LOOKED FOR IN CORN HONORS

Lively Competition Expected at International Grain and Hay Show.

Over 2,000 samples of corn at Chicago with a real fight for 1922 supremacy in corn production will be staged at the International Grain and Hay show in connection with the International Live Stock Exposition in Chicago, Dec. 2 to 9. More than 2,000 entries of the 4,000 now listed, said the manager, W. Q. Elch, are for corn. J. W. Workman of Maxwell, Ill., is crowned "Corn King" for 1921. This was the first time in the history of the eight national and three international grain shows that the "Corn King" did not hail from the Hoosier State. The corn growers of Indiana are coming to Chicago with literally hundreds of samples determined to capture the big prize as well as many of the smaller ones. The famous Johnson County and Shelby County corn district had the most favorable growing season last summer in a number of years. A few localities through Indiana suffered from drought, but on the whole the season was good. The quality of the Indiana samples should be above those shown at Chicago for the last two years. The corn entries are also heavy from Iowa, Missouri, Illinois and Maryland.

A special feature of the show this year will be a "Corn Dollar" made in yellow corn. George Heern of Pella, Iowa, is the King Midas who will turn the "silver dollar" into the "golden dollar." He will bring this most valuable dollar in the world to the "International" and stand guard over it during the show.

Still another feature made of grain to be on exhibit will be a reproduction of a farm scene made in seeds and grasses by Mrs. M. K. Gleason of Brown County, Indiana. The picture was first shown at the Indiana State Fair this year and very appropriately emphasizes the artistic temperament of the famous Brown County people.

A big feature occupying the center of the floor in the main exhibit hall will be a working model of the grain elevator made to scale one thousand to one. The elevator is constructed entirely of aluminum at a cost of \$3,000.

The model will show cars of corn being loaded and unloaded, weighed and elevated to the storehouse. This is the most complete operating model of a grain elevator of its kind in the world. The Chicago Board of Trade is responsible for the construction of the elevator and will operate it during the show. Aside from the \$10,000 which the Board of Trade is giving for cash premiums in the show it will offer for the first time a handsome corn trophy for the Grand Sweepstakes ten ears of corn. The 1922 "Corn King" will win in addition to the new Board of Trade trophy a trophy from the American Manufacturers' Association of Products from Corn and \$45.00 in premium money.

The educational exhibit, erected under the auspices of fourteen of the state universities, will be a big feature of the show. This exhibit has the results of experimental work and practical demonstration on crop production and live stock feeding. The state universities exhibiting follow: Purdue, Michigan, Maryland, Oklahoma, Wisconsin, Idaho, Nebraska, Louisiana, Iowa, Kansas, Illinois, North Dakota, Tennessee and Minnesota.

EQUAL RIGHTS IN RUSSIA.
Women workers are put to leading ties on Trans-Siberian railway freight cars in "Red Russia" as a punishment for their rights. They get the same pay as men. We are glad that women of this country do not have to do this kind of work, but a healthy body that would stand such physical labor is a good thing.

For the relief of rheumatic pains, there is nothing better than the "Don's Prescription 1903, put up for each individual case at a price of \$1.00. For sale at the Frumas Drug stores in South Bend at the following convenient locations: Cor. Michigan and Wayne sts., Cor. Michigan and Washington, Main and Colfax, and in Mishawaka at the Red Cross Pharmacy. Mail orders filled by Landon Drug Co., South Bend.

KOPPER KETTLE CLUB CIGARS.
Guaranteed all imported filler with Sumatry wrapper. All dealers. Adv.-292-14.

MANY ST. JOSEPH COUNTY FARMERS TO PAY TRIBUTE

Anniversary of Farm Agent's Inauguration in State to Be Observed.

L. N. Hull, of Hanna, a farmer, who is district chairman for the National Farm Bureau, will attend the St. Joseph County Directors meeting Saturday morning at 10 o'clock in the court house. Mr. Hull represents the farmers of northwestern Indiana. At this session a delegate to the state convention at Indianapolis, Dec. 1 and 2 will be elected.

Next week a Decennial celebration of farmers is to be held at LaPorte, with some of the most prominent agricultural leaders of the nation as headliners. J. W. Coverdale, secretary of the American Farm Bureau Federation, will speak Tuesday afternoon at 8 o'clock. Ex-Gov. Harding, of Iowa, appeared at 8:15 o'clock Tuesday evening to speak on the "Great Lakes to the Ocean Waterway." Local Indiana leaders, Indiana agriculturists from Purdue and elsewhere appear on the program Monday and Tuesday.

Many From County.
Plans are being made by the St. Joseph County Farm Bureau to be represented there by a large delegation of farmers and women interested in agriculture.

The particular occasion for this celebration is the fact that county agent work in Indiana was started 10 years ago next Monday in LaPorte county. The program of the celebration as announced by Bird is:

1:00 p. m. Winter Feeding of Poultry for Profit. Prof. A. G. Phillips, chief of poultry husbandry department, Purdue university, 2:00 p. m. "Legumes and Soil Fertility," Ward A. Ostrander, associate in soils and crops department, Purdue university, 3:00 p. m. Illustrated address on "Fruit Growing," C. L. Burkholder, Purdue university, 3:30 p. m. "Indiana" (Illustrated), Prof. G. I. Christie, director of Indiana state agriculture department, Purdue university, 3:50 p. m. "Landscaping the Home," C. L. Burkholder, Purdue university.

TUESDAY.
1:00 p. m. "Why I Am Glad I Married a Farmer," Mrs. Charles Jewell, director of women's work in Indiana, 2:00 p. m. "Feeding of Minerals to Hogs," F. G. King, Purdue university, 2:30 p. m. "Cattle Feeding," F. G. King, Purdue university, 3:00 p. m. "Progressive Agriculture," J. W. Coverdale, secretary of American Farm Bureau Federation, 3:30 p. m. Complimentary dinner to guests of honor, given by the LaPorte Chamber of Commerce, 8:10 p. m. Address, "Great Lakes to the Ocean Waterway," ex-Gov. Harding, of Iowa.

STUDEBAKER CLIMBS BUT IS HIT BY SHORTS

Sporadic Rallies Occur on Market—Liquidation at Close of Session.

NEW YORK, Nov. 24.—Sporadic rallies in individual issues, combined with rather extensive short covering on the rebound and short selling, have been overcome and technical conditions warranted a rally, gave the market the appearance of strength during the early part of the session but the half hearted way in which the rally progressed induced further liquidation and short selling, which spread a wave of weakness over the list at the close.

Equipment, food, oil, textile and motor stocks rallied one to three points above yesterday's closing prices on the rebound and short selling, which spread a wave of weakness over the list at the close. Equipment, food, oil, textile and motor stocks rallied one to three points above yesterday's closing prices on the rebound and short selling, which spread a wave of weakness over the list at the close.

Independent Steel shares were again subjected to short pressure but they offered more stubborn resistance. U. S. Steel, Gulf States and Lackawanna were unchanged. Republic moved up a point and Republic and Vanadium fractionally while Bethlehem B and Crucible declined 1-4 and 3-4, respectively.

Standard Oil shares yielded more to the pressure of New York exchange down almost five points at one time and closing at 190 1-4, or sixty points below the high figure reached just before the declaration of the stock dividend. Standard Oil of California was down 2 1-4 and General Asphalt 1 1-2, but Pacific Oil, California Petroleum and the pan-American issues moved to higher ground.

Relaxation of pressure against some of the railroad shares resulted in mixed changes at the close. Chicago and Great Western preferred broke two and Delaware and Hudson yielded 1-2 but Lackawanna improved 1-4 and Illinois Central preferred 1-8, most of the other changes being of a fractional character.

Studebaker climbed to 124 1-4 but it was picked out as a target by short interests towards the close and knocked down to 122 1-8. Oil money opened and renewed at 4-4 and advanced to five in the late afternoon, closing at that figure. Time money was more plentiful today, some thirty day loans being arranged on a 4-4 percent basis. The longer maturities continue to show a demand for them. The commercial paper market was comparatively quiet with the ruling names commanding 4-4 percent.

Foreign exchange business again was quiet, prices fluctuating within narrow limits. Demand for sterling was quoted around \$4.49 1-4 and French francs around 7.15. Silver exchanges were weak in reflection of the recent drop in silver prices.

WHEAT PRICES GAIN ON FOREIGN MART DEMAND

CHICAGO, Nov. 24.—(By A. P.)—Wheat moved upward in price today largely by way of response to the course of values at Winnipeg and Liverpool. The close was unsettled, 2-4 to 1-8 cent higher, with May 117 1-4 to 117 3-8 and July 109 1-8. Corn finished unchanged to 1-4 up; oats with 3-8 to 5-8 cents gain and provisions varying from the same as yesterday's close to a rise of 20 cents.

It was an accepted explanation here that advances in the Winnipeg market were due to attempts on the part of cash interests to get wheat to fill November contracts. Upturns at Liverpool were interpreted as the result of similar conditions there, and were given special notice because of taking place despite declines yesterday on this side of the Atlantic. Talk of liberal European buying at the seaboard tended also to favor the bull side of the market. Besides 235,000 bushels of No. 2 hard were taken here for export. Scantiness of rural offerings of corn together with reports that western shippers and feeders were

INDIANAPOLIS LIVESTOCK.

INDIANAPOLIS, Nov. 24.—HOGS.—Receipts 12,000; market strong, 50c higher. Top \$8.00; bulk \$7.70; heavy weight \$7.50; medium weight \$7.30; light weight \$7.10; light hogs \$6.80; heavy packing, smooth \$7.50; packing hogs rough \$7.40; pigs \$6.80.

CATTLE.—Receipts 500; market steady. Top \$11.00; bulk \$10.50; heavy weight \$10.00; medium weight \$9.50; light weight \$9.00; light calves \$8.50; heavy calves \$8.00; heavy calves \$8.00; heavy calves \$8.00.

SHEEP.—Receipts 9,000; market steady. Lambs \$13.00; cull and common \$9.25; yearling wethers \$9.50; heavy weight \$9.00; cull and common \$8.50; cull and common \$8.50; cull and common \$8.50; cull and common \$8.50.

POTATOES.—Receipts 40 cars. Wisconsin white, No. 1 sacked \$9.00; Wisconsin white, No. 2 sacked \$8.50; Wisconsin white, No. 3 sacked \$8.00; Wisconsin white, No. 4 sacked \$7.50; Wisconsin white, No. 5 sacked \$7.00; Wisconsin white, No. 6 sacked \$6.50; Wisconsin white, No. 7 sacked \$6.00; Wisconsin white, No. 8 sacked \$5.50; Wisconsin white, No. 9 sacked \$5.00; Wisconsin white, No. 10 sacked \$4.50; Wisconsin white, No. 11 sacked \$4.00; Wisconsin white, No. 12 sacked \$3.50; Wisconsin white, No. 13 sacked \$3.00; Wisconsin white, No. 14 sacked \$2.50; Wisconsin white, No. 15 sacked \$2.00; Wisconsin white, No. 16 sacked \$1.50; Wisconsin white, No. 17 sacked \$1.00; Wisconsin white, No. 18 sacked \$0.50; Wisconsin white, No. 19 sacked \$0.00; Wisconsin white, No. 20 sacked \$0.00.
